EXAMINER INTERVIEW SUMMARY

Mail Stop: Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This Examiner Interview Summary is submitted to document the interview conducted via telephone between the Applicants' Agent and the Examiner on December 10, 2004. Please enter the following remarks.

The subject interview included a discussion of the claim amendments included in the latest Amendment filed on November 15, 2004. The Applicants' Agent described to the Examiner how the currently pending claim 19 distinguished over the cited art of record (Trueblood). Attention was paid to the server computer system of claim 19 versus

the X-server of Trueblood. The Examiner agreed that the November 15, 2004, amendments to claim 19 served to further clarify the method.

Further discussion was conducted with regard to the first and second parts of the associated active session, and the roles of the secondary and primary Human Interface
5 Devices in displaying the first and second parts of the associated active session, respectively. The Applicants' Agent discussed claim 19 in the context of a multi-head display system to further distinguish the features of claim 19 relative to the cited art of record.

The Examiner indicated that the Applicants' arguments submitted in the
10 Amendment of November 15, 2004, were understood. The Examiner agreed to fully consider the amendments to claims and the arguments set forth in the Amendment of November 15, 2004.

Respectfully submitted,
MARTINE & PENILLA, L.L.P.
